

NOX RXP • P221

NOX RXP

NOX RXP is a modified Paradox RTX3 receiver. With a NOX RXP you can integrate wireless Paradox motion detectors, magnetic contacts, remote controls and more to the NOX system. Communication is established on the regular NOX bus.

NOX RXP specifications

- NOX interface busmodule
- Max. 50 paradox transmitters per receiver
- Integrated tamper switch
- Reach depends on the transmitting unit

Technical Data

	Unit	Min.	Nominal	Max.
Supply voltage (VBUS)	VDC	9.0	15.0	15.5
Current consumption at 15VDC	mA			56
Operating temperature	°C	0	25	40
Air humidity at 40 °C (non condensing)	% RH			93
Dimensions (L x B x H)	mm	172 x 155 x 28 (without antenna)		
Protection class		IP20		

Terminal connections

Terminal	Red	Black	Green	Yellow	PGM	PGM
Description	9 - 15VDC	GND	NOX BUS A	NOX BUS B	Not used	Not used
